Carol Stream, Ill. – Aug. 20, 2010 – *Constructech* magazine recognized the winners of the 2010 *Constructech* Vision Awards last evening. Held at the conclusion of the fifth annual Technology Day conference, the awards were presented during a dinner and ceremony at the Hyatt Regency Woodfield Schaumburg hotel.

The *Constructech* Vision Awards honor companies that have realized the advantages of applying innovative technologies to their everyday businesses as well as the technology enablers that have helped them achieve their goal.

Any company involved in residential, commercial, and heavy construction, professionals in all trades, architectural and engineering firms, corporate owners, facility management companies, government agencies, and land developers were eligible to enter for the 2010 *Constructech* Vision Awards.

"All of this year's winners are exemplary companies from the construction industry, across multiple vertical segments," says Mike Carrozzo, chief editor, *Constructech* magazine. "Their effort to remain innovative at a time when so many companies are cutting costs, at the expense of seeing the overall picture, is remarkable. I do hope the effort they have put forth will encourage more companies to follow their lead."

The winners of the 2010 *Constructech* Vision Awards are:**AEC/Design**

"Now more than a decade since its inception, the *Constructech* Vision Awards prosper in honoring companies that have stepped up, leading the way for the implementation of technology in the construction marketplace," says Peggy Smedley, editorial director, *Constructech* magazine. "Whether it be first-time winners, or a company like Clark Builders Group, who won for its 10th time, the Vision Awards are a way to celebrate those that are taking charge in today's fast-paced, technologically advanced arena."
