ON CENTER SOFTWARE ANNOUNCES NEW ALLIANCE WITH EUROPEAN SOFTWARE PROVIDER NOMITECH

The Woodlands, Texas (January 12, 2010) – Industry-leading construction software developer, On Center Software, Inc., proudly announces its newest alliance with European software company Nomitech, or New Open Minds Technologies. This new partnership is expected to further the reach of On Center Software’s construction technology throughout Europe.

On Center Software’s On-Screen Takeoff® is a construction estimating and takeoff application that uses electronic plans to digitally complete construction takeoffs. Through this strategic alliance, On Center Software’s On-Screen Takeoff will be made available for purchase through Athens, Greece-based Nomitech, a cost estimating software provider dedicated to improving the estimating process. The addition of On-Screen Takeoff to Nomitech’s line of products will further promote the global adoption of electronic estimating within the construction industry. According to Nomitech’s Managing Director Tolis Chatzisyneon, “Nomitech is proud to successfully integrate with On-Screen Takeoff. Providing quantity takeoff support, together with Primavera, Excel, MS Project Integration, famous online cost knowledge bases, and centralized cost databases allows our system—CostOS Estimating—to strategically position itself in the worldwide market.”

About Nomitech

Nomitech, or New Open Mind Technologies, is a leading European software company providing cost estimating software systems for project owners, government agencies, contractors, engineers and designers. Involved in the cost estimating field since 2001, Nomitech is dedicated to providing high-end products and up-to-date advancements in cost engineering and software development. Employing highly trained software engineers and experienced estimators, Nomitech’s aim is to provide user-friendly systems with modern graphical interfaces that fulfill clients’ cost estimating needs.

About On Center Software, Inc.
