**On Center Software Annual Users Conference
Set For October 29-30, 2007**

THE WOODLANDS, TEXAS – (September 17, 2007) – On Center Software, a leading provider of electronic plan viewing, takeoff, estimating and production tracking software for the construction industry, will host its annual Users Conference October 29–30, 2007. The event will be at The Woodlands Waterway Marriott Hotel & Convention Center in The Woodlands, Texas, just north of Houston.

All On Center Software clients are encouraged to attend the conference to update and expand their knowledge of the On Center ProfitBuilding Suite of products, including On-Screen Takeoff[®], Quick Bid, and Digital Production Control[™]. Also showcased will be On-Screen Takeoff[®] 3.5, the company's newest version of its award-winning takeoff program, offering an array of additional features, enhanced image handling options and even greater speed and accuracy.

Conference instructors and On Center Software representatives will utilize instructional materials, presentations and workshops to give attendees the latest tips, shortcuts and strategies to help them benefit from the full range of On Center Software product capabilities.

“The conference is the place to come for knowledge that can impact your bottom line,” said Leonard Buzz, On Center Software president and CEO. “It’s a great opportunity to learn not only from the On Center Team, but from industry peers who share the same goals and issues on a daily basis.”

The conference is divided into four tracks: Intermediate, Advanced, Best Practices and Estimating. Additionally, an On Center Software open lab, staffed by the company's technical support and training personnel, will be available to all attendees throughout the conference. Users can get help with specific questions or projects and work with On Center Software staff on best practices and efficiencies.

To learn more about or register for the conference, visit www.oncenter.com/userconference.

About On Center Software, Inc.

Located in The Woodlands, Texas, On Center Software, Inc. (OCS) is a privately held company formed in 1988 by construction professionals. Their mission is to transform the estimating experience of construction industry professionals by developing and supporting innovative, practical, comprehensive software solutions that turn winning bids into profitable projects. On Center Software combines extensive industry knowledge, a solid understanding of the estimating process and state-of-the-art technology to turn ordinary bidding data into meaningful information.
