**ON CENTER SOFTWARE NAMED “TECHNOLOGY ENABLER”
BY CONSTRUCTECH VISION AWARDS**

On Center recognized for role in award given to Component Assembly

THE WOODLANDS, TEXAS – (Sept.6, 2006) – On Center Software, Inc., the leader in takeoff, estimating and bidding software, was recognized at *Constructech* magazine’s 2006 Vision Awards for helping Component Assembly Systems, Inc. meet business challenges by using modern technology.

The Vision Awards, an annual competition organized by *Constructech* magazine, honors companies that have realized the advantages of applying modern technologies to their everyday businesses. The competition is open to companies involved in residential, commercial, and industrial construction.

At an award ceremony on August 23, Component Assembly Systems received a Gold award in the Specialty Contractors/\$101-250 Million Project category. In its award submission, Component Assembly named On Center Software as a “technology enabler” that allowed the company to meet its goals.

“On Center’s On-Screen Takeoff® and QuickBid® programs, together with the Component Assembly Systems Information Manager (CASim) program, create a powerful solution to managing complex data,” said John Rapaport, Director of Operations, Component Assembly Systems. “With our projects growing in scope and scale, having accurate data is crucial for us to perform our jobs effectively.”

“We congratulate Component Assembly on its win and are proud to be a part of it,” added Leonard Buzz, CEO of On Center Software. “On Center will continue to develop new and innovative technology to help construction professionals do their jobs more efficiently.”
